Disney's effects on society

The point of this video is not
Disney but merely the stereotypical
....., the construction of femininity/masculinity and the
portrayal of dominant/single women in its animated feature films.
Disney did not invent these stereotypes but rather
them in society.
Media in socializing individuals. That is, conveying to
males and females certain, values and
..... to live by.
The socializing process starts at a age.
Disney is at the pinnacle of the children's
No other company has the influence or that this
multinational conglomerate has.
